Food Area Aerosols

White Spray Grease

CODE: F402

H1 Registered water resistant white grease

A highly effective white spray grease containing anti-wear additives for use in the lubrication of roller and needle bearings and chains.

Benefits:

- H1 registered for use in food environments
- Contains anti-wear additives for long component life
- Water resistant – suitable where frequent washing down of equipment is required
- Corrosion resistant
- Effective to high temperatures

Technical Data:

Category	H1 – Lubricants with incidental contact
InS Certificate No.	1794735
NSF Certificate No.	139270
	Does not contain any genetically modified ingredients, nut oils or animal derivatives
Appearance:	White light grease
Odour:	Slightly sweet
Contents:	Blend of aluminium based light grease, corrosion inhibitor and hydrocarbon propellant
Storage:	Below 50°C
Flash Point:	
Temperature range:	-18 to 200°C
Relative Density:	0.671
Pack Sizes:	12 x 400ml cans
Directions for Use:	Shake can well before use. Spray grease sparingly. Use the extension tube when access is limited or when applying through guards. Test on sensitive surfaces before application.
